TITLE: Strengthening Our Practice: Strengthening Our Families

COMP. #: 206

NO. HRS: 2

DATE: April 17, 2013

QUALITY SERVICES REVIEW INDICATORS:

- Practice Performance Indicator 1a: Engagement Efforts
- Practice Performance Indicator 2: Teaming
- Practice Performance Indicator 6: Child/Youth and Family Planning Process

COMPETENCIES:

- 206-1 The Child Welfare Professional is able to assess the special needs of clients who may be pregnant, single, or without support. These special needs may include family planning services, pre and post-natal medical care, education to prevent abuse and neglect, special needs of single fathers and skills for family life.
- 206-3 The Child Welfare Professional is able to use relevant community resources to help single parents obtain appropriate services, including establishing paternity, obtaining financial support, and accessing adoption services.
- 207-1 The Child Welfare Professional understands the historical and philosophical basis of family preservation and family-centered Child Welfare practice, including family systems theory, and can apply his/her understanding to case planning and service delivery.

LEARNING OBJECTIVES: Participants will be able to:

- Recognize the role of 'Strengthening Families' and the Protective Factors Framework
- Recognize the role of the Pennsylvania Child Welfare Practice Model in fulfilling our mission
- Identify connections and commonalities between Pennsylvania's Child Welfare Practice Model and the Strengthening Families Protective Factors Framework

CALENDAR SUMMARY:

The achievement of positive outcomes for Pennsylvania's children, youth and families is an overarching goal that those serving families can easily agree upon. While the approaches are as varied and unique as the families served, there are many similarities to the mission of our work. This workshop will explore the connections and commonalities between
