COMPETENCIES:

309-2 The child welfare professional can recognize the indicators of drug abuse, including cocaine addiction, in adults and in children; understands the potential effects of drug use on family functioning; and knows appropriate referral methods and treatment resources.

LEARNING OBJECTIVES: Participants will be able to:

- Identify the impact of opioid use, addiction, and recovery on child development
- Identify warning signs of opioid use/ and abuse
- Discuss the five components of recovery
- Engage parents in conversations regarding opioid use, addiction, and recovery

CALENDAR SUMMARY:

During this two hour workshop, participants will receive information about indicators of opioid use and addiction. Participants will discuss and identify the impacts opioid use, addiction, and recovery have on the development of children and on a parent's ability to manage parenting and their household. Additionally, participants will create plans to engage in conversations and work with families experiencing opioid use, addition, and recovery. This workshop is eligible for 2 Continuing Education credit hours.
