V. SAFETY ANALYSIS: RESPOND TO THE FOLLOWING ANALYSIS QUESTIONS

- 1. Have any changes (positive or negative) occurred within the out-of-home family since your last assessment? Describe the changes and explain what prompted the change. Include in the explanation whether or not the change in the family resulted in a change in response to the 10 Safety Indicators. (Note: if this is the initial assessment, check here ...).
- 2. Considering all of the 10 Safety Indicators, are there sufficient positive Safety Indicators present and in operation that give you confidence that the child will remain safe in the setting? Provide your rationale for this judgment.
- 3. Describe in behavioral terms, any Negative Characteristic and/or Safety Indicators that are present. Include intensity, frequency, and duration of the Characteristic and/or Safety Indicator and the impact on this child. If there are negative Safety Indicators and the decision is to leave the child in this home, describe the rationale and justification for this decision. Supervisory signature below indicates agreement with this rationale.
- 4. A) Consider and describe any Safety Indicators that are rated as "concerning". B) Are there supports (e.g. respite care, child care, training on the child's specific needs, etc.) that will enhance the resource family's ability to provide a safe environment for the child? Provide your rationale for this judgment. For supports already in place, describe the effectiveness/impact/continued need for that support.
