

## Engagement Cycle

1: Begin with establishing common ground (ie wanting what's best for the child)

2: Move on to general framing. Why are you having the conversation?

3: Move in to the specifics of the topic (regarding the family; may be information sharing or collaborative).

4: Once specifics are discussed, transition into common ground (#1) of understanding.

\*When disengagement occurs, go back to 1, common ground and repeat the cycle.
